Fyi

Sent from my BlackBerry 10 smartphone on the Verizon Wireless 4G LTE network.

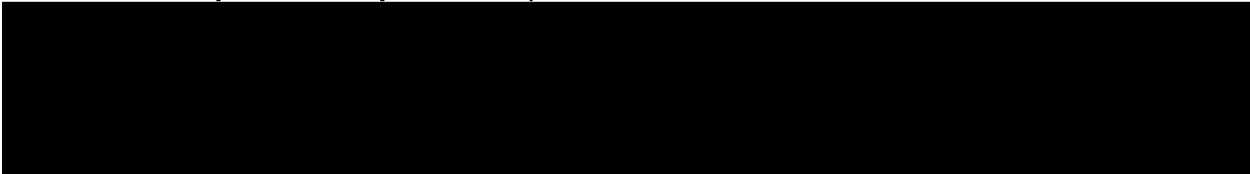

I talked with Dolores Mexia this morning re EPA organizational structure, ongoing coordination w/state agencies, and federal responsibility under RCRA and CAA. I let her know we understand the community's concerns re Exide, and conveyed my personal willingness to meet with her group to discuss the public health and compliance issues they're trying to resolve w/DTSC. I expect to hear from her via email after tonight's community meeting.

One of the specific issues she wants me to communicate directly to the community is the difference between state and federal regulatory agencies (i.e., clarify the meaning of the term "partners").

Thanks again for the heads up. Please let me know if you have any questions.

Sent from my BlackBerry 10 smartphone on the Verizon Wireless 4G LTE network.

Thanks, Joel – I left Dolores a voicemail with your contact information.

Thank you for the Exide update. I'm not available tomorrow (kind of short notice), but I'll let her know EPA is closely tracking the issues/state agency enforcement activities at Exide.

Subject: Exide - East Side Coalition

FYI -

I received a message from Dolores – with the EJ East Side Coalition 213-308-8129. She called me on behalf of the children of the community and the pregnant woman in the neighborhood that are being affected by Exide. She feels like EPA has not had a presence and urges our participation. There is a meeting tomorrow night that she would like EPA to attend.

Resurrection Church Hall

Opal Street

Meeting Tomorrow Night - Wants EPA there.

I talked with Steven. It looks like Joel Jones is the EPA contact for this and Steven left a message for Dolores with his contact info. If you would like me to do anything further, please let me know.
